An Industry-Recognized Safety Orientation and Verification Program

When some of the largest mills make a major change in their safety orientation, IT'S TIME FOR YOU TO LEARN MORE.

TAPPISAFE is a project of TAPPI, the leader in training for the pulp, paper, tissue, packaging, and converting industries since 1915 with the support of the Alliance Safety Council, which has more than 25 years of proven success in developing and maintaining safety orientations, while delivering over 1.8 million courses to several industries.

A JOINT PROJECT OF IN COOPERATION WITH

**Why TAPPISAFE®?**

An Industry-Recognized Safety Orientation and Verification Program

“Ensuring all team members, contractors, suppliers and visitors arrive home safely every day is our most important measure of success. By partnering with TAPPISAFE, we have been able to tailor and provide a standardized, cost effective orientation to the thousands of contractors that work on our sites daily. We believe this orientation is an enabler for us to achieve an injury-free workplace – for everyone.”

Kirt Cuevas, Vice President, Environment, Health & Safety • International Paper

---

**THE FIRST INDUSTRY-SUPPORTED SAFETY ORIENTATION AND VERIFICATION PROGRAM FOR THE PAPER, TISSUE, AND PACKAGING INDUSTRIES.**

Developed by safety experts from leading owners, contractors, and suppliers, the program includes the following features and services:

- Basic Orientation
- Site-Specific Orientation
- Process Safety Management Orientation (PSM)
- Truck Driver Orientation
- Employee Safety Orientation
- GateCheck Application
- Specialized Topics
- Plus 26 Additional Safety Training Courses
- Online Records Management (Accessible online 24/7)

---

**GET STARTED IN JUST A FEW SIMPLE STEPS!**

1. Contractors and suppliers simply login to tappisafe.org and take the Basic Orientation and Site-Specific Orientation(s).
2. After completing all required courses, a temporary Student ID badge can be printed and records can be verified at the gate.
3. Contractors and suppliers receive a TAPPISAFE® badge in 7-10 days with course code and expiration date for all orientations they have completed.
4. The workforce arrives at your facility, ready to go for gate entry.

---

**FACILITIES + STANDARDIZATION = COST SAVINGS**

- Courses can be accessed at any time or place with an internet connection, allowing the workforce to easily complete orientations and be ready for work when they arrive at a facility.
- Site-specific orientations are developed and kept up to date by TAPPISAFE® personnel. All you have to do is submit the material and we will do the rest.
- TAPPISAFE® Basic Orientation is reviewed every two years for updates by our Curriculum Committee, consisting of Owners, Contractors, Suppliers and Subject Matter Experts from our industry.
- Orientation records are updated in real-time and accessible 24/7 in the TAPPISAFE® database.
- Coordination of safety orientations across multiple facilities within a company is simplified.
- Assurance and verification that all workers entering a facility have completed the required safety orientations.
- TAPPISAFE® Basic Orientation is recognized as an OSHA awareness level safety orientation throughout our industry.

---

**ADDITIONAL BENEFITS:**

- The Industry Absorbs the Cost
  - Orientations are paid for by the contractor/supplier workforce who recognize the benefits of the program as a necessary requirement for facility entry.
  - Reduces Exposure to OSHA Scrutiny
    - Individual orientation records can be verified instantly and are easily retrieved in the event of an audit.
    - The program is monitored by an Advisory Committee consisting of representatives from facilities, contractors, suppliers, and subject matter experts.
- Decreases the Impact on Your Bottom Line
  - Staff time to conduct and manage safety orientation programs is reduced, allowing the facility safety team to focus on essential duties.
  - A workforce prepared for gate entry improves facility efficiency.
  - Redundancy for contractor/supplier companies to complete multiple orientations is eliminated.

---

**“TAPPISAFE’s 24/7 accessibility makes it a great streamlined safety solution for those out in the field traveling - no matter where you are you can arrive onsite ready for entry. There is no having to register anyone, once you have your account set up everyone just logs on and take the required courses.”**

David L. Taplin, Northeast Flow & Density Specialist Emerson Automation Solutions

Why TAPPISAFE®?
An Industry-Recognized Safety Orientation and Verification Program

“The first industry-supported safety orientation and verification program for the paper, tissue, and packaging industries.

Developed by safety experts from leading owners, contractors, and suppliers, the program includes the following features and services:

✓ Basic Orientation
✓ Site-Specific Orientation
✓ Process Safety Management Orientation (PSM)
✓ Truck Driver Orientation
✓ Employee Safety Orientation
✓ GateCheck Application
✓ Specialized Topics
✓ Plus 26 Additional Safety Training Courses
✓ Online Records Management (Accessible online 24/7)

Get Started In Just A Few Simple Steps!

1. Contractors and suppliers simply login to tappisafe.org and take the Basic Orientation and Site-Specific Orientation(s).
2. After completing all required courses, a temporary Student ID badge can be printed and records can be verified at the gate.
3. Contractors and suppliers receive a TAPPISAFE® badge in 7-10 days with course code and expiration date for all orientations they have completed.
4. The workforce arrives at your facility, ready to go for gate entry.

FACILITIES + STANDARDIZATION = COST SAVINGS

✓ Courses can be accessed at any time or place with an internet connection, allowing the workforce to easily complete orientations and be ready for work when they arrive at a facility.
✓ Site-specific orientations are developed and kept up to date by TAPPISAFE® personnel. All you have to do is submit the material and we will do the rest.
✓ TAPPISAFE® Basic Orientation is reviewed every two years for updates by our Curriculum Committee, consisting of Owners, Contractors, Suppliers and Subject Matter Experts from our industry.

ADDITIONAL BENEFITS:

The Industry Absorbs the Cost
✓ Orientations are paid for by the contractor/supplier workforce who recognize the benefits of the program as a necessary requirement for facility entry.

Reduces Exposure to OSHA Scrutiny
✓ Individual orientation records can be verified instantly and are easily retrieved in the event of an audit.
✓ The program is monitored by an Advisory Committee consisting of representatives from facilities, contractors, suppliers, and subject matter experts.

Decreases the Impact on Your Bottom Line
✓ Staff time to conduct and manage safety orientation programs is reduced, allowing the facility safety team to focus on essential duties.
✓ A workforce prepared for gate entry improves facility efficiency.
✓ Redundancy for contractor/supplier companies to complete multiple orientations is eliminated.

“Ensuring all team members, contractors, suppliers and visitors arrive home safely every day is our most important measure of success. By partnering with TAPPISAFE, we have been able to tailor and provide a standardized, cost effective orientation to the thousands of contractors that work on our sites daily.
